

Informatica

Data Quality | Providing the fundamentals your team needs to kickstart a data quality initiative

Kickstart and Scale Data Quality with Sempre's Quick Start for Informatica Cloud

Simplify and scale your data cleansing with Informatica **Cloud Data Quality**

The **Sempre Quick Start Package**, provides the fundamentals your team needs to kickstart a data quality initiative in an area of your business.

Covering everything from assessing the initial data quality to identifying the specific business objectives good data quality will deliver.

Our consultants work with your team to advise on existing systems, processes and people. Then collaboratively complete a knowledge handover to ensure your team is self-sufficient.

Creating the systems and processes to ensure data quality underpins enhanced data quality over the long-term.

A **quick-start** package enabling customers to implement Informatica **Cloud Data Quality** in under **four weeks**.

Deliver a data quality improvement process across one area of the business. **Quickly prove value** from the solution and gain rapid adoption.

The repeatable process takes customers through assessing initial data quality and the trends within **Profiling**, building **Data Quality Assets** to standardise, cleanse and deduplicate data, then reusing these assets within data pipeline mappings.

Sempre experts work alongside the customer team throughout the process, providing **knowledge handover** and **ensuring ownership** of the solution is with the customer.
